

Argent Multifamily Darksky Bollard

BOLLARD

*Meets all BAA and BABA
Made in USA Requirements*

Physical Data

Width - 5"
Height - 32"
Weight - 21 lbs

IP65 Suitable For Wet Locations
Impact Resistant (Vandal Resistant)

Argent Darksky Bollard Design with Directional LED components for Downlight only. Multiple sizes available to your projects specific needs. Designed for effective lighting of landscapes, pathways, and open spaces. Continuing with Evergreens promise to make all products out of the highest quality American Made Materials for All Industries.

Extruded Aluminum
Extruded Aluminum Tube 6061 from USA Mills. Diecut, Capped and welded for maximum strength and durability. 1/8" thick aluminum wall construction with inside mounting baseplate laser cut for 4 galvanized steel anchor bolts 3/8" x 12" long.

Finishing
All Evergreen Products go through an extensive inspection for pre-finishing prep to make sure all metal is clean and free of any defects.

Paint
UV Stabilized 4.9Mil thick powdercoat paint and backed at 400 degree F. This process ensures that Evergreen products can withstand harsh environments. Rated for use in High Impact environments.

Pre Paint
8 step degreasing with phosphoric acid deoxidizing and etching as well as a zinc and nickel phosphate process before product painting.

Hardware
Provided Hardware is Galvanized Steel 3/8 X 12" Long Anchor Bolts complete with Washers and Nuts.

Sealed for Wet Locations
Provided with special interior welded watertight seams along with specific "fit for purpose" long life high temperature memory retentive silicon gaskets.

Regressed Screw Holes
Tapped holes are threaded with a special aluminum Tap Tool designed to prevent the regressed Flat Head screws from stripping out or being tightened flush with the bollard body.

Thermal Management
6061 Extruded Aluminum is used for its excellent mechanical strength and thermal dissipation properties in low and high ambient temperatures. The superior thermal heat sink design by Evergreen used in conjunction with the driver controls thermals below critical temperature range to ensure maximum luminous flux output, as well as providing long LED service life and ensuring less than 10% lumen depreciation at 50,000 hours.

High Impact Acrylic Lens
Manufactured with Ultra High Impact, Naturally UV Stabilized Virgin Acrylic.

Optics & LED
Precise optic design provides exceptional light control and precise distribution of light. LED CRI - 90

Driver
Options Available are Standard 120/277 volt, 0-10V Dimming for 120/277 volt, or Phase Dimming for 120 volt only

Lumen - Maintenance Life
L80 / B10 at 50,000 hours (This means that at least 90% of the LED's still achieve 80% of their original flux)
